

Review My Talking Tom

Outfit7 Limited

My Talking Tom is a game for mobile or pc in which you have a Cat as a virtual pet and you can live many adventures with it! The app is one of the most downloaded and is great entertainment for the whole family, adults and children

My Talking Tom Minigames are so much fun! Did you want more tips and tricks? Well here they are, we have a game just out of the oven called A Up and consists of going up. Use your feline reflexes to jump from one support to another; Just watch that you do not go too far and end up nose in an obstacle or in the nails. Of course things can get complicated with some supports that move or disappear after a few seconds. Watch out for the catapults! They will give you a big push up but the higher you go up, the harder the obstacles will be; Grab a helmet and you can destroy obstacles, grab a magnet and you will attract the most distant coins.

Here is another cake tower game, building a cake tower requires a lot of concentration to get the rhythm right, play at the right time to make a perfect stack and if your tower is high enough you can reach the balloons with coins!

But enough of sweets and let's focus on the adventurer's life that is anything but easy. Racing in the mine here, scorpions there, typical just a normal day in the jungle! What you need is to think quickly and effectively. Walk fast in safe areas, go slower on crowded roads, and stay in the middle of the road, snuggling up to the sides can be deadly.

And if exploring ancient temples is not crazy enough for you you can always fly between Greek columns in the game known as Flappy Tom requires patience and above all a stable risk, find a place on the screen to play, do not be distracted and start flying low the higher you climb the harder it is to control tom.

For all of you musical virtuosos out there I dedicate this Space Piano game to you, play fast and to the beat on the black keys at the bottom and try not to raise or lower your finger too much! Or you will get a bad grade. It is more than anything to focus on the tiles according to the order in which they are approached and like any instrument practice makes perfect

My Talking Tom is the most charming cat of the **games and applications** available, they can caress him, make them rave (ok but without going over), play games with him and do many other things, all to make him happy. But there are also things that Tom doesn't like a little like forgetting about his food, even if they hear they don't go overboard because later they will have to diet or just give him less food for a little while.

Pure joy on **Android and iOS with My Talking Tom!** He takes Tom to bed regularly because a cat that hasn't had enough rest doesn't have energy to play, and what's more, does anyone like to go through life sleepy? They can always drink an energy potion, and it does leave you looking like new but don't you think it's better to spend your coins on other things?

It is a perfect day to get on the jet ski with my talking tom or talking angela, do not forget the life jacket and the water. What an adrenaline rush this beach is full of jump ramps, slalom tracks, you have stars that give points and fun objects to destroy but be careful there are also some dangerous obstacles such as buoys, shipwrecks, old submarines, rocks and more. But don't worry if you get too close you can always give a little touch sideways unless you have the power of the fist so you can destroy everything that overlaps your way! If you want to go quiet and enjoy the beach scenery, you can use the brake arrow but you better avoid the acceleration arrow! Well you will see the rush you are in.

Some quick tricks

If what you want is for your pet Tom to feel better and thus go faster in level, the healthier and happier this cat is, the better results he can achieve. This way, you will level up and eventually be awarded incredible celebrations. Make sure you don't miss out on these opportunities by **downloading My Talking Tom for free**. Another way to satisfy your cat is to give him some delicious foods to eat, while he can react in a very funny way with some foods like cold or garlic!

Pros	Cons
- It is fun. -It has very good graphics. - It's free. - Without violence.	- Earning rewards is difficult. - Presence of ads - It can get slow - Minigames are a bit boring.
